SUMMARY

I am a dedicated Full-Stack Developer with over 1.10 years of experience at VGD Technologies, evolving from a Junior Backend Developer to my current role. I excel at creating ERP systems and enterprise applications, utilizing my skills in both frontend and backend development. With a strong proficiency in technologies such as React.js, Node.js, various databases, and cloud services, I aim to contribute to innovative projects.

EDUCATION

Master of Commerce (M.Com)

Shree B.P. BrahmbhattArts&M.H.GuruCommerce College, Unjha
Graduated: 2025
CGPA: 8.94

EXPERIENCE

Full-Stack Developer

VGD Technologies

05/2025 - present Ahmedabad

A technology company focused on developing enterprise solutions and software applications

- Leading development of ERP and HR modules as a full-stack developer, working on both frontend and backend.
- Built responsive user interfaces with React.js, HTML5, and Tailwind CSS, and integrated them with backend services.
- Collaborated with cross-functional teams to deliver two production-ready projects as a full-stack contributor.
- Improved deployment processes with Docker, AWS (EC2, S3), and Git-based CI/CD pipelines

Backend Developer

VGD Technologies

04/2024 - 05/2025 Ahmedabad

A technology company focused on developing enterprise solutions and software applications

- Designed and implemented RESTful APIs and GraphQL endpoints using Node.js and Express.js.
- Managed MySQL, PostgreSQL, and MongoDB databases, optimizing queries for performance and scalability.
- Handled backend modules for ERP and enterprise applications, ensuring security and reliability.
- Actively participated in Agile sprints, code reviews, and unit testing.

Jr. Backend Developer

VGD Technologies

09/2023 - 04/2024 Ahmedabad

A technology company focused on developing enterprise solutions and software applications

- Completed 6 months of intensive training in Node.js, Express.js, and MySQL.
- Transitioned through a probation period, contributing to small backend modules under senior guidance.
- Assisted with debugging, testing, and bug fixes for production projects.
- Gained foundational experience in Agile methodology, Git/GitHub collaboration, and DevOps basics.

SKILLS

Gmail ERP React Redux
JavaScript HTML Node.js
Express.js REST GraphQL
PostgreSQL MongoDB AWS
S3 EC2 Docker GitHub
ES6 CSS Unit Testing
Tailwind Git Agile HRMS
Google Firebase Customer.io

PROJECTS

HRMS (Internal HR Management System)

VGD Technologies

An internal HRMS solution designed for managing various HR functions, including attendance and document management

- Developed the complete HRMS solution for VGD Technologies, enabling efficient management of employee information and processes

Fit2Flaunt

VGD Technologies

A global dance and fitness learning platform available on web and mobile

- Contributed to the React web application by developing the Profile View, Community Section, and Explore Video Section.
- Implemented event tracking integrations such as Firebase Events, Customer.io, and Meta Pixel

LMC (Legend Maritime Cargo)

VGD Technologies

A logistics and maritime cargo management platform

- Led the entire backend development, building scalable REST APIs and managing database operations.
- Ensured reliability and performance in tracking shipments and client operations.
